

SAFETY RECALL NOTICE

REMINGTON POLESAW MODEL NUMBER RM2599 (41CDPS1C983)

Polesaws Affected: Only the model numbers shown above, and certain serial numbers, 1K199DG1886 through 1L029DG2661 (manufactured between November 19, 2019 and December 2, 2019), are included in the recall. The second through fifth characters of the serial number identify the manufacturing date. The second character is the month with A= January, B= February, C = March etc. The third and fourth characters are the day of the month. The fifth character is the last digit of the year of manufacture (e.g. K199 = November 19, 2019). Polesaws which fall outside the affected serial number range are not affected and are OK to continue using. **Affected polesaws were sold between November 27, 2019 and January 24, 2020.**

Hazard: Polesaw attachment head on product may continue to rotate after the throttle is released. If so, the moving attachment head may pose a laceration hazard.

What Consumers Should Do: Consumers should stop using the polesaw and call 1-888-848-6038 for further instruction on obtaining a replacement.

DO NOT USE AN AFFECTED POLESAW

If you need assistance locating or reading the model or serial number of your polesaw, or have any other questions, call the Remington Polesaw Recall Hotline toll-free at **1-888-848-6038** between 8:30AM and 5:00 PM EST Monday through Friday
